

### **Dr. Andreas Gabriel**

**Chief Operations Officer  
Röchling Medical**

Dr. Andreas Gabriel studied chemistry in Darmstadt/Germany and Bordeaux/France. After completing his diploma at the Technical University of Darmstadt, he pursued his doctorate in cooperation with industrial partners in the field of materials science.

In 1998, he started working as a consultant at a renowned firm and established his own consulting company in London/England in 2002. His consulting focus was mainly on the chemical and pharmaceutical industry.

From 2006 to 2018, Dr. Gabriel worked for the German chemical and pharmaceutical company Merck. He began his career in fine chemicals as the head of a global supply chain, combined with the responsibility for worldwide product launches. He then served as Senior Director of Operations and General Manager, overseeing chemical production activities for Merck in China. In 2013, he was appointed Senior Vice President of Global Technical Operations for Merck Consumer Health in Darmstadt/Germany. Following the acquisition of Merck Consumer Health by consumer goods company Procter & Gamble in 2018, Dr. Gabriel held the position of Vice President, overseeing Product Supply Personal Healthcare and Supply Network Design for regions outside North America, based in Geneva/Switzerland.

In October 2021, Dr. Gabriel joined Röchling Medical as the Chief Operations Officer. Upon joining Röchling Medical, Dr. Gabriel was also appointed to the Executive Board of the division.
