

## Polystone® P HG natur

PP-H

### High-performance polypropylene especially for the Healthcare industry

This special material has good machinability and excellent chemical resistance. Polystone® P HG is an isotactic polypropylene available as a homopolymer. This unique property profile makes it perfect for applications in the pharmaceutical industry either as a distribution unit, components for drug manufacturing or in chromatography.

### Operating in the following industries

### Extended characteristics

#### Biocompatibility

Tested on the semi-finished product and approved in accordance with ISO 10993-5 and/or USP Class VI. Further test series are available on request.

#### High flexibility

A wide range of colours and dimensions are available. Please contact us directly – we will be happy to answer your questions.

#### Quality Management

The highest level of quality and performance in products, processes, the safety and health of our employees and the careful use of resources.

#### Good machinability

Polystone® P HG can be processed very well within narrow tolerances using conventional CNC machines. The material is also dimensionally stable.

We are a system supplier and partner from the idea to the OEM's end product - as a cooperative value contribution. We are able to support the healthcare industry at the highest level.
