Advantages of Polystone® D

Long service life
No cracking, splitting, rotting or delamination

Easy to clean
Little maintenance required and easy to clean

Easy to handle
Lighter than steel, it's density is 0.96g/cm³

Corrosion resistant
Resistant to chemicals, cleaning agents and UV

High mechanical stability
Good strength and impact resistance

Customised design
Colour matched to suit your decor, (subject to MOQ)

*Conforms to health and safety guidelines DIN Standard 51097 ref class C, anti-slip coefficient of friction. (A German standard that tests slip resistance of flooring in barefoot conditions using soapy water as a contaminant).
