

## Technical Data Sheet

## Play-Tec® UV-stabilized orange

PE-HD / PE 300

### Typical characteristics

- resistente a los rayos UV
- Fisiológicamente seguro
- estabilizado a los rayos UV
- Colourfast
- Buena maquinabilidad

### Typical industries

- Deporte y ocio
- Construcción de buques y embarcaciones
- Parques infantiles
- Embarcaciones de recreo y trabajo

|                                         | Test method             | Unit                 | Guideline value |
|-----------------------------------------|-------------------------|----------------------|-----------------|
| <b>General properties</b>               |                         |                      |                 |
| Density                                 | DIN EN ISO 1183-1       | g / cm <sup>3</sup>  | >0,91           |
| Water absorption                        | DIN EN ISO 62           | %                    | <0,1            |
| Flammability (Thickness 3 mm / 6 mm)    | UL 94                   |                      | HB              |
| <b>Mechanical properties</b>            |                         |                      |                 |
| Yield stress                            | DIN EN ISO 527          | MPa                  | >23             |
| Elongation at break                     | DIN EN ISO 527          | %                    | >50             |
| Tensile modulus of elasticity           | DIN EN ISO 527          | MPa                  | >1100           |
| Notched impact strength                 | DIN EN ISO 179          | kJ / m <sup>2</sup>  | >30             |
| Shore hardness                          | DIN EN ISO 868          | scale D              | >65             |
| <b>Thermal properties</b>               |                         |                      |                 |
| Melting temperature                     | ISO 11357-3             | °C                   | 162 ... 165     |
| Thermal conductivity                    | DIN 52612-1             | W / (m * K)          | 0,20            |
| Thermal capacity                        | DIN 52612               | kJ / (kg * K)        | 1,70            |
| Coefficient of linear thermal expansion | DIN 53752               | 10 <sup>-6</sup> / K | 120 ... 190     |
| Service temperature, long term          | Average                 | °C                   | -30 ... 100     |
| Service temperature, short term (max.)  | Average                 | °C                   | 150             |
| Vicat softening temperature             | DIN EN ISO 306, Vicat B | °C                   | 85              |
| <b>Electrical properties</b>            |                         |                      |                 |
| Dielectric constant                     | IEC 60250               |                      | 2,5             |
